

## NOVEMBER 2016

Our 2016/17 summer season is under way and we are very pleased to have completed the final upgrades to Dunstan House.

The redecorated, ground floor Powder Room has a new ensuite including a beautiful claw foot bath with a great history of it's own!! Originally in Dunstan Hotel then Dunstan Hospital, this bath was in the garden at Chatto Creek Hotel keeping the beer cool from the Central Otago sun. Lesley is delighted it has made it's way back to Clyde.

Our Rustic Room which is located at the rear entrance of our building , now also has an ensuite. This will be a popular room over our season as it is spacious, cool and quiet.

We have continued our theme of using the wonderful William Morris wallpapers and they look right at home as if they have been on the walls from the original 1900's beginning.

We look forward to a great summer inviting you to join us and share this beautiful heritage building while also catching up on the new retail and restaurant options here in Clyde.

Cheers Maree and John
