

## WINTER NEWSLETTER

As the temperatures drop and the leaves disappear off our trees, a very good autumn is coming to an end and it is time to close our doors for another season. Through contacts made with the seasonal Vanuatu workers to our area, we are heading there for 3 weeks voluntary work. This will be a new experience with many challenges and rewards.

In our absence we are fortunate to have any bookings and enquiries covered by Leanne from next door at Hartley Arms. She will be checking emails and phone messages daily.

We will reopen 1<sup>st</sup> October already having many group bookings in to suggest another firm season ahead for the Rail Trail. There are also an increasing number of wedding couples choosing our charming village for their weekend celebrations.

We have decided to remain on site in our Stables wing and will reopen with 12 rooms available. We have added a new front room downstairs with a queen sized bed and share bathroom. This is named the Powder Room keeping with it's history of being the room where the female passengers off the Cobb and Co Coach would spend time powdering their noses and having a cup of tea..

We now have both a queen and single bed in the Miners Lane and Wong rooms enabling both to be either double or twin ensuite rooms. See all 12 rooms listed here on our website.

So why not join us for your visit to historic Clyde and enjoy the history, stories and ambience of Dunstan House.
